Experience

Sanglob Business Services, Pune — Associate Consultant Aug 2024 – Present

- **Client: Grihum Housing Finance Ltd. (via Sanglob)**
 - Served as QA Consultant for EKHUM Live Fintech NBFC platform - OutSystems
 - Customer onboarding, KYC, and credit modules; logged issues via Jira with 95%+ accurate results.
 - Collaborated with business team to gather and analyze business requirements.
- **Loan Origination System (LOS)**
 - Automated LOS workflows including eligibility, document validation, and approval stages.
 - Built 15 dynamic dashboards to track loan stages with real-time data insights.
- **Brightminds Essay Competition Platform**
 - Developed this using PHP, jQuery, Chart.js, and Ajax with integrated complex business logic.
 - Built features like auto-save, topic assignment, timer, notifications, and admin review panel.
 - Reduced report code, enabled faster reloads, and delivered major features in 5-day sprints.
- **Company Website Redesign**
 - Built modular, reusable frontend components and implemented clean URLs via routing and .htaccess.
 - Implemented authentication, SMTP-based emails, and SEO meta tags for improved indexing and delivery.

Gazick Private Limited — Full Stack PHP Developer May 2023 – Jul 2024

- **Real Estate Platform (Jul 2023 – Nov 2023)** [Acreearth.com](#)
 - Led development with user login, property uploads, admin approval, and status tracking using PHP and MySQL.
- **Other Projects:**
 - [Zilawyers.com](#) Wix-based edits, UI updates, and client-requested customizations.
 - [Kalaarang.com](#) Built CMS for artists to manage entries with gallery uploads and admin panel.
 - [Niall.co.in](#) SEO enhancements, contact forms, performance analytics, and WhatsApp integration.
 - **WP Custom Dev** Theme/plugin customization, tuning, custom code, caching and reusable shortcodes.

AKS IT Universe, Satna — Junior Web Developer Jan 2023 – April 2023

- Built CRUD web applications using PHP, MySQL, and jQuery with responsive UI.
- Transitioned into desktop development using ASP.NET (C# WinForms).
- Collaborated with senior developers throughout the SDLC and improved UI fundamentals.

Key Projects

E-Learning Platform — Built with course uploads, payments, video access, progress tracking, and feedback features.
Medical Prescription System — Digitized solution with PHP, AJAX for patient data manipulation and filtering.
WordPress Customization — Customized themes/plugins, and CLI-based automation and client panel setups.
Portfolio Website — HTML/CSS/JS portfolio deployed on GitHub; Integrated Firebase and real-time contact forms.
WinForms Cart System — Built product selection, checkout features, and managed transactions using .NET and C#.

Education

Master of Computer Applications (MCA) – AKS University, Satna 2021 – 2023
Bachelor of Computer Science – Govt. Degree College, Satna 2017 – 2021

Certifications

AngularJS (Programming Hub), GIAR Certified, Cloud Computing (2022)

Professional Highlights

Contributed to live production projects under real client deadlines with full-stack responsibilities.
